Hi Dan -

I'm so sorry to hear that. Please find attached another Xerox of the letter. It is as dark as we can get it for it to still be legible. I've also asked that the folder for this be found and to confirm it went out. If I can't confirm that it was sent, I will have Jim sign a new copy of the letter and make sure it is copied in a legible way and send a hard copy. I've also asked the staff that has the responsibility of copying letters for our records to only use machines that can accurately capture the content.

The webpage referenced in the letter is: <https://www.epa.gov/wi/epa-investigating-milwaukee-company-potential-environmental-violations>.

Let me know if I can be of further assistance.

Thank you,

Eileen Deamer

Dear Denise,

The original still hasn't made it. If you could forward another copy that would be much appreciated.

Dan

Shirley:

The original letter was mailed yesterday, so you should receive it tomorrow.

The only copies I can find here have the same, poor ink quality. Again, my apologies.

Best,
Denise

My apologies, Shirley.

I am working remotely today. Let me see if someone in the office can scan and resend the letter. If not, I'll try first thing in the morning.

Thanks for your patience.
